What is SILC?

With so much of the world's leased fleet managed in Ireland, SILC is an intensive day and evening event that has been welcoming airline, lessor, MRO, and supplier delegates from across Ireland and abroad every year since 2016.

Featuring 9 hours of aviation content, panels and keynotes with 20 expert speakers including Dr Frankie O'Connell on Global Airline Trends, the conference brings together panelists from the leasing community and presentations from aviation consultants for a day of insight, discussion and connection.
